Excitech technical website content

The Excitech website uses cookies. By using this website and agreeing to this policy, you consent to Excitech's use of cookies in accordance with the terms of this policy.

Our Cookies Policy explains what cookies are, how we use cookies, how third-parties may use cookies, your choices regarding cookies and further information about cookies.

What are cookies?

A cookie is a tiny data file, which is stored on your computer within the web browser, when certain web pages are visited. A cookie does not contain or collect information in isolation, but when read by a server via a web browser it can give information to facilitate a more user-friendly service such as detecting errors. A cookie will not harm your computer and no personally identifiable information is stored from the use of this site.

There are two types of cookie:

Persistent cookies remain on a user's device for a set period of time specified in the cookie. They are activated each time that the user visits the website that created that particular cookie

Session cookies are temporary. They allow website operators to link the actions of a user during a browser session. A browser session starts when a user opens the browser window and finishes when they close the browser window. Once you close the browser, all session cookies are deleted.

How we use cookies

We use cookies on our website. You can choose to accept or decline cookies. Although most web browsers automatically accept cookies, you can usually modify your browser setting to decline cookies to your preference. However, this may prevent you from taking full advantage of our website.

We use cookies on our website:

- To recognise a computer when a user visits the website
- Track users as they navigate the website
- Improve the website's usability
- Analyse the use of the website
- Administer the website
- Prevent fraud
- Improve the security of the website
- Personalise the website for our users

Cookies on our website are used for:
