

CASE STUDY

SHEPHEARD EPSTEIN HUNTER (SEH)

How e-learning and document management help SEH prepare for its BIM accreditation journey

Excitech have successfully guided us through two big challenges so far and we are closer to achieving BIM Level 2 accreditation with their help.

BIM

A managed BIM process brings huge benefits to the delivery of projects today, and with protocols and standards the government has mandated all projects involved with central funding should now be developed in line with the principles and practices of BIM.
