Excitech Toolkit for Civil 3D not loaded. What now? .....	6

## Excitech Toolkit Overview

### What is Excitech Toolkit?

Excitech Toolkit is a suite of essential tools, utilities and apps for Revit, Civil 3D and AutoCAD (coming soon). These tools are designed to enhance the user's experience, improve productivity and introduce new capability when working with these platforms.

### Can the Excitech Toolkit be purchased separately?

Yes, the Excitech Toolkit for Revit, Civil 3D and AutoCAD (coming soon) can be purchased separately as an annual subscription. Please contact your Excitech Account Manager to enquire about pricing.

Customers who purchase an Autodesk subscription contract from Excitech which includes an AutoCAD, Revit or Civil 3D product will gain access to the Excitech Toolkit at no extra cost.

## Pinnacle Base

### What is Pinnacle Base?

Pinnacle Base is a scaled down version of Pinnacle Series which is an online e-learning platform designed to accelerate technology skills development and support just-in-time, on-demand end user training. Pinnacle Base offers a similar user experience and contains all the learning content, videos and guides for the Excitech Toolkit. Pinnacle Base is being made available to Excitech customers at no extra charge to enable rapid user learning and adoption of the full suite of tools in the Excitech Toolkit.

### How does Pinnacle Base differ from Pinnacle Series?

Pinnacle Base offers a similar e-learning experience as Pinnacle Series for users. Whereas Pinnacle Series includes full libraries of training content and CPD accredited courses for Autodesk, Microsoft, Adobe, CIBSE and more, Pinnacle Base contains only the learning materials and video tutorials for the tools contained in the Excitech Toolkit.

### How do I gain access to the full training course library of Pinnacle Series?

To gain access to all the Autodesk, Microsoft, Adobe, CIBSE learning courses as well as more functionality such as being able to add your own content, create advanced workflows, learning paths, assign courses to people or groups, and increased administration capabilities, rights control, SSO and reporting, to name a few, Pinnacle Base can be upgraded to Pinnacle Series. Please contact your Excitech Account Manager to enquire about pricing.

For a full feature and content comparison please visit [www.excitech.co.uk/Products/Pinnacle-Base](http://www.excitech.co.uk/Products/Pinnacle-Base)

### I already subscribe to Pinnacle Series; do I also need to sign in to Pinnacle Base to access the Excitech Toolkit training materials?

Customers who already have an active Pinnacle Series subscription will, in addition to the full catalogue of Autodesk training materials, also gain full access to the Excitech Toolkit learning materials subscription as part of their contract. This will automatically appear in the Asset Library.
